Portfolio: <https://spencerhulse.github.io/portfolio-v-2/>

Full-stack developer with an education in psychology and experience as an editor. Received training through the Vanderbilt Coding Bootcamp, during which time skills in areas including HTML, CSS, and JavaScript were developed. During that time, projects such as creating websites and making a game were carried out. Other skills include written and oral communication, the capability to pick up new skills quickly, and logical problem-solving skills. Combined with dedication and adaptability, the goal is to push ahead and keep learning and succeeding in the field.

TECHNICAL SKILLS

Languages: JavaScript ES6+, CSS3, HTML5

Applications: GitHub

Tools: Bootstrap, jQuery
